Block 7 – Planted in 1996 in alternating layers of sand and clays at an elevation of 450 ft.

Growing Conditions: 2015 saw a lot of see-saw weather, with the growing season starting off cool and wet. The sun emerged for good in mid-summer, giving the vines the boost they needed to fully ripen the grapes. Harvest proceeded on schedule, and we were able to produce small quantities of very tasty wine with all varieties.

Harvest

Harvest Date: October 5, 2015

The Winemaking

Varietal Composition:

95% Cabernet Franc, 5% Cabernet Sauvignon

Vinification: Grapes were machine picked at dawn, and were immediately crushed into open-top fermentation vessels. Our favorite yeast strain was added, and fermentation began within 24 hours. At dryness, the grapes were pressed to a stainless steel tank. After several days of settling, the wine was transferred to a mixture of French and American oak barrels. Following aging in oak, the wine was blended with a small amount of Cabernet sauvignon for added richness and complexity.
